Sacred Money Archetypes® Assessment!

Your Sacred Money Archetypes® Assessment

The first thing you need to do is download the [Sacred Money Archetypes Assessment](#) – it's a fillable pdf to make it easy.

This Assessment will identify the traits and characteristics that are already within you and authentic to you, so you can learn how to play to your strengths and not be knocked off course by the challenges.

To fill it in, simply use the rating scale at the top of each page to rate each statement. Choose the rating that is truest for you and please be HONEST – don't pick the answer you 'wish' was true or think is the 'best' one.

In other words, don't overthink it!

Your first intuitive answer will be the best.

Every archetype has the ability to create wealth and financial freedom. So don't let yourself be dragged into the feeling even for a second that your #1 archetype is somehow not as big of a superpower as any of the others.

It should only take 8-10 minutes to complete the Assessment, if that. This isn't a 'test'! You can't get it wrong. No particular Archetype is 'better' or more desirable than another. Just go with what Divine Inspiration gives you!

On the final page of the assessment, your 'Grand Totals' will be displayed.

The three highest scores are your unique Sacred Money Archetypes®. It doesn't matter if there's only a one-point difference between one and the next one, the top three are the top three.

You can then complete the table at the bottom of page five, listing your archetypes in order from one to eight.

What if you have a tie?

First, remember that we only consider the first three highest scoring archetypes as being significant. So if there is a tie for 4th place or lower, it's not something you need to address.

A tie happens because more than one archetype is strongly represented for you.

Let's say there is a two-way tie for the top highest scoring archetype. That

simply means that both of these archetypes have equal power and influence for you.

What you're going to do is ask a specific question (that I'll give you in just a second) designed to help you easily choose which of these tied archetypes is going to become your number one.

Then, the one that you DIDN'T choose will move down and become your 2nd archetype. Got that?

Let me give you an example. Let's say there is a tie for your first archetype between Nurturer and Connector. You ask yourself the tie resolving question, and you decide that Nurturer is your #1 archetype. This means Connector automatically becomes your #2 archetype.

So what happens to the archetype that had scored the 2nd highest, just after the ones tied for first? Well, because you now have your 1st and 2nd, it moves down and becomes your 3rd. And the archetype with the 3rd highest score is shifted down to the 4th, which is not a significant position.

So going back to our example, Nurturer and Connector were tied for 1st, and the 2nd highest score was Alchemist. You ask the tie breaking question and you decide Nurturer is your #1 archetype. This means Connector automatically becomes your 2nd archetype which means Alchemist shifts down to 3rd.

One more thing I want to make sure you know before I share the tie resolving question is this:

Your #1 archetype has the most significance because it IS the driving force regarding your relationship with money.

It represents your greatest gifts and also your greatest challenges, which really means, your greatest opportunity for growth, contribution and empowerment.

The more you stretch to fulfil the destiny of your top archetype, the more whole, authentic, empowered and extraordinary you become in your life.

This gives you the opportunity to break free of past limitations and imprinting, and to move forward with power, purpose and passion as you become the leader of your life and the creator of your financial freedom.

So the question to ask if you have a tie break is very simple and it is this:

Everyone's goal is to create financial freedom. For each of the archetypes that are tied, read the Sacred Money Contract and choose one based on this question:

Which one will empower you the to reach this goal of creating financial freedom?

So now you have your top three Sacred Money Archetypes®. It's finally time to find out what they say about you!
